

Information regarding Integrated Supply Chain Management Certificate Course

1. Is there any course fee waiver or special offer for EWU graduates?

At this moment, EWU has not yet decided about waivers for EWU students.

2. Who are the faculty members conducting the sessions?

Check attachment.

3. After completing this course, does EWU offer any advanced courses or further opportunities in the supply chain field?

Yes, please check the attached flyers. After the Basic Level, we will offer an advanced level and a Diploma level.

4. Do you offer internship, project placement, or industry support after course completion?

Yes, at the Diploma level, we will arrange internships.

5. Is this course helpful in building a professional career in supply chain management, and what kind of roles or sectors can it lead to?

A career in supply chain and logistics offers diverse opportunities across various industries. Examples of roles in this field include logistics analysts, supply chain managers, operations managers, and procurement managers. Professionals in these positions can utilize their skills in planning, sourcing, and managing the flow of goods and services.

With experience and further education, those in supply chain and logistics can advance to senior management positions such as Director of Supply Chain, Vice President of Operations, or even executive leadership roles.

Hope this information will help you.
