

Institutional Financial Support for Students with Disabilities

(Accounts Office Record, 2025)

Our university maintains an institutional commitment to ensuring equitable access to education for students with disabilities through a structured system of reasonable adjustments and financial support. This includes provisions such as tuition fee waivers and direct financial assistance, designed to reduce barriers to participation and academic continuity.

As evidence of implementation, the University's Accounts Office maintains official records documenting students with disabilities who receive such support. The attached document for the 2025 academic year details beneficiaries of tuition waivers and financial assistance, demonstrating both the operationalization of this policy and the allocation of dedicated institutional funding.
